Nerbonne Family notes:

In the mid-twenties Bill Nerbonne became quite ill from an illness that has not been identified. Aunt Lizzie was desperate to find a way to support the family so she asked the School Superintendent for permission to remove Theresa from further schooling . As she explained to the Superintendent in Theresa's hearing: "She will never amount to anything, anyway and the other two children are much smarter" Theresa was excused from further school attendance. Theresa was then put to work doing housework for a local family or any other type work that could be found. She was eventually employed by a local Electrical Meter Company where she remained for many years and proved that her Mother under-estimated her capabilities.

Theresa and Reginald Small's son was born with Downs Syndrome. If he had been born at a later date he very likely would have been educated to become a very valued worker.His birth was a disappointment but they decided to treat him as a well loved son and always took him with them where ever they went .David was well known throughout the area where ever there was a public supper, He was known to pass throughout the hall greeting the regular patrons .After his death his body gave life to many recipients of his organs. Theresa was amazed by the great number of cards she received from people she did not know who had been impressed by David's friendliness and constant Good Humor.

To the Descendents of George W and Jane Dolan Supry: Enclosed is a copy of your Family Tree as I have researched it. I am sending a copy to you to enable you to make corrections and/or additions as you understand Your Family Records The records are saved on computer so changes can easily be made. If I do not hear from you I will assume that the information is correct as far as can be ascertained and the information will be added to the records of the other families descended from our common Ancesters, .After receiving the reports from the remaining Supry descendents I hope to combine them into ONE Set of reports to make a complete Genealogy of the Supry Family. I will then endeavor to send a copy to each participating Family.

If you wish to keep the enclosed record please make any additions or corrections on a separate sheet of paper explaining what the corrections refer to and send it to me at P.O.Box 157, Pittsburg,NH 03592 or E-Mail to cathdsn1@localnet.com

I will also try to relate stories that I have been told that should be recorded to add feeling and depth to the bare facts. Any stories you wish to relate will be most gratefully received, including copies of any photos you may wish to contribute.

This is a time consuming project. Please remember that I am approaching Eighty-nine so my days may be numbered! Hoping you will look forward to the completion as much as I do. Sincerely

To the Descendents of George W and Jane Dolan Supry: :Enclosed is a copy of your Family Tree as I have researched it. I am sending a copy to you to enable you to make corrections and/or additions as you understand Your Family Records The records are saved on computer so changes can easily be made. If I do not hear from you I will assume that the information is correct as far as can be ascertained and the information will be added to the records of the other families descended from our common Ancesters, .After receiving the reports from the remaining Supry descendents I hope to combine them into ONE Set of reports to make a complete Genealogy of the Supry Family. I will then endeavor to send a copy to each participating Family.

If you wish to keep the enclosed record please make any additions or corrections on a separate sheet of paper explaining what the corrections refer to and send it to me at P.O.Box 157, Pittsburg,NH 03592 or E-Mail to cathdsn1@localnet.com

I will also try to relate stories that I have been told that should be recorded to add feeling and depth to the bare facts. Any stories you wish to relate will be most gratefully received, including copies of any photos you may wish to contribute.

This is a time consuming project. Please remember that I am approaching Eighty-nine so my days may be numbered! Hoping you will look forward to the completion as much as I do. Sincerely

Catherine Guertin Dickson
